Career Objective

Motivated and enthusiastic Computer Science student with skills in Java and C, along with knowledge of data structures, web development, and databases. Seeking an opportunity to learn, grow, and exchange ideas in a dynamic team while building impactful solutions. Committed to continuously learning new technologies to drive organizational growth and personal development.

Educational Qualification

B.E. in Computer Science & Engineering, <i>SJB Institute of Technology, Bengaluru, VTU, CGPA: 7.54</i>	2023 – 2027 Bengaluru
Class XII – Pre-University Education (PUC), <i>BGS PU College, Gouribidanur, State Board, Score: 89.00%</i>	2021 Gouribidanur
Class X – Secondary School Leaving Certificate (SSLC), <i>BGS Public School, Gouribidanur, State Board, Score: 94.04%</i>	2019 Gouribidanur

Technical Skills

Programming Languages

Java, C (Basics), SQL

Tools & Platforms

Git, GitHub, VS Code, Eclipse, Vercel

Concepts

Object-Oriented Programming (OOP), Data Structures & Algorithms, DBMS, Operating Systems, Computer Networks

Web Technologies

HTML, CSS

Projects

HireSense AI – AI Mock Interview & Resume Analysis Platform • Developed an AI-powered mock interview platform that generates role-specific interview questions and evaluates candidate responses using Generative AI. • Implemented resume analysis, performance scoring, feedback generation, and PDF report export using React, Tailwind CSS, and Groq AI.	2026
EduEvent- Event Management • Developed a Django-based academic event management system with live attendance tracking, QR-code certificate generation, and automated PDF issuance based on attendance and feedback validation. • Implemented event lifecycle management, secure certificate verification using SHA-256, CSV export functionality, and a responsive Bootstrap 5 dashboard.	2026
Smart Energy Optimizer • Built an AI-driven energy optimization system that predicts energy consumption using LSTM models and real-time IoT sensor data. • Improved energy efficiency through intelligent HVAC control and predictive analytics for smart energy management.	2026
